# ABOUT THE BUILDERS ASSOCIATION OF VICTORIA

The Builders Association of Victoria is a non profit trade association serving Victoria and the surrounding counties affiliated with the National Association of Home Builders and the Texas Association of Builders. Chartered in 1952, the association represents and unites its members in the housing, remodeling, commercial and associated businesses.

We do this by:

Serving as the voice of the building industry, by being a proactive participant in the legislative and regulatory processes;

Providing industry information and education to our members and the public; and

Enhancing the professional standards and image of our members.

Our goal is to continue to improve conditions in the building industry by promoting a balance between responsible growth and environmental issues; to provide the citizens with safe, quality and cost-effective housing; and to encourage a sound economic future for the counties the association serves.
